Scheduler

JN **John Nadasky**

The Scheduler consists of the following schedules:

- Dashboards

- Schema Loads

- Data Notifications

- Schema Notifications

In the Action bar, select Add New to

- Create a schedule for a Schema Load

- Create an Alert

- Import an Alert

To create a scheduled delivery of a dashboard, you must :

1. Open the Dashboard

2. In the Action bar, select the Sharing icon.

3. In the Sharing menu, select Schedule Delivery.

4. Configure the delivery and email recipients.
